

Theme Keynote Speaker

Yubo Fan, PhD

Professor of Biomechanics

*Director, Key Laboratory for Biomechanics and
Mechanobiology of Ministry of Education*

*Dean, School of Biological Science and Medical
Engineering, Beihang University, Beijing*

President, Chinese Society of Biomedical Engineering

Talk title: TBD

Professor Yubo Fan is the Dean of School of Biological Science and Medical Engineering, Beihang University, China. He is also currently the President of Chinese Biomedical Engineering Society, Council Member of World Congress of Biomechanics. Prof. Fan specializes in Biomechanics, with particular interest in Experimental Technology in Biomechanics, Dental and Musculoskeletal Mechanics, Cardiovascular Fluid Mechanics, Rehabilitation Engineering, and Medical Appliance.
