

Theme Keynote Speaker

Shoogo Ueno, PhD

Professor, Kyushu University

Dean, Faculty of Medical Technology,

Teikyo University

Professor Emeritus, the University of Tokyo

Japan

Talk title: Biomagnetism
—Past, Present and Future—

Dr. Shoogo Ueno received the B.S., M.S. and Ph.D. (Dr. Eng.) degrees in electronic engineering from Kyushu University, Fukuoka, Japan, in 1966, 1968, and 1972, respectively. Dr. Ueno was an associate professor with the Department of Electronics, Kyushu University, from 1976 to 1986. From 1979 to 1981, he spent his sabbatical with the Department of Biomedical Engineering, Linkoping University, Linkoping, Sweden, as a guest scientist. He subsequently served as a professor in the Department of Electronics, Kyushu University (1986-1994) and in the Department of Biomedical Engineering, Graduate School of Medicine, the University of Tokyo (1994-2006). In 2006 he retired from the University of Tokyo as professor emeritus. Since 2006 he has been a professor with the Department of Applied Quantum Physics, Graduate School of Engineering, Kyushu University, and is also dean of the Faculty of Medical Technology, Teikyo University, Fukuoka.

Dr. Ueno is a Fellow of the Institute of Electronic and Electrical Engineers (2001) and of the American Institute for Medical and Biological Engineering (2001). He is a Fellow and Member-at-Large of the Governing Council of the International Academy for Medical and Biological Engineering (2006). He was President of the Bioelectromagnetics Society (2003-2004), Chairman of the International Union of Radio Science's Commission K on Electromagnetics in Biology and Medicine (2000-2003), and President of the Japanese Society for Medical and Biological Engineering (2002-2004).
